Nore.—All bidders are requested to extend the amount of their bids for each article, and exhibit the total amount of each bid.

The periods and quantities of each delivery at those posts where they are not specified, will be, one-fourth 1st June, 1st September, 1st December, 1846, and 1st March, 1847.

The hogs of which the pork is packed to be fattened on corn, and each hog to weigh not less than two hundred pounds, excluding the feet, legs, cars, and snout. Side pieces may be substituted for the hams. The pork is to be first salted with Turk's Island salt, and then carefully packed with the same article, in pieces not exceeding eight pounds each.

When the packing has been completed, the contractor must furnish to this office a certificate from the packer, that the pork has been so salted and packed. The pork is to be contained in seasoned heart of white oak tarrels, full hooped; the beans and salt in barrels, and the soap and candles in strong boxes of convenient size for transportation.

Salt will only be received by measurement of thirty-two quarts to the bushel. The candles to have cotton wicks. The provisions for Fort Atkinson and St. Peter's must pass St. Louis, for their ultimate desination, in the first week of April, 1846. A failure in this particular will be considered a breach of contract, and the department will be authorized to purchase to supply these posts. The provisions will be inspected at the time and place of delivery, and all expenses to be paid by contractors until they are deposited at such storehouses as may be designated by the agents of the department. PROSPECTUS OF THE NEW LIBRARY
OF LAW AND EQUITY, under the direction of Francis J. Troubat, esq., of Philadelphia, Hon. Ellis Lewis, of Lancaster; and Wilson McCandless, esq., of Pittsburgh.
This work contains the best productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear, they become monopolies in the hands of booksellers in the Atlantic cities. Under the plea of right, acquired by the addition of notes of American decisions, the latter claim an undivided title to those works, and set a burdensome price on them. The publishers of the work now offered to the profession throughout the Union, will not respect such titles, but will reprint the standard British law books as fast as they emanate from the London market. Should new editions of the works of such writers as Starkie, the Chittys, Stephen, and Archbold, appear, they shall also be included; and digests of equity and law decisions—works which have been studiously kept out of the Law Library published at Philadelphia—shall have a place in the proposed new one, together with every new valuable English treatise on chancary or common law.

Beckwith's Anti-dyspeptic pills
have been most successfully employed in almost every variety of functional disorder of the stomach, bowels, liver, and spleen; such as heartburn, acid eructations, nausea, headache, pain and distension of the stomach and bowels, incipient diarrhea, colici, jaunduce, flatulency, habitual costiveness, loss of appetite, sick headache, sea-sickness, &c., &c. They are a safe and comfortable aperient for females during pregnancy and subsequent confidement; relieving sickness at the stomach, headache, heartburn and many of the incidental nervous affections. Literary men, students, and most other persons of sedentary habits, find them very convenient. Those who induge too freely in the pleasures of the table find speedy relief from the sense of oppression and distension which follow, by taking the pills. As a dinner pill, they are invaluable. Those who are drinking mineral waters, and particularly those from southern climates, ague and fever districts, will find them a valuable adjunct. Those who are exposed to the vicissitudes of weather on voyages or journeys, can take them at all times with perfect safety. In full doses they are a highly efficacious and safe antibilious medicine. They seldom or never produce sickness at the stomach or griping.

There have been many imitations and worthless counterfects of these pills put in circulation by unprincipled and ignorant persons—the directions, wrappers, &c., of the genuine pills so closely and accurately copied, that the closest observer could not, without a trial of their effects, distinguish between them.

Dr. T. W. Dyotr & Sons, of the Columbian col-
